

Meridian 9417 CW

Two-Line Call Waiting Display Telephone

With two separate lines, the Meridian 9417 CW is ideal for professionals who get work-related calls at home, families with teenagers, and those who need to be accessible while working on-line.

Key Features:

- Two lines with Conference key
- Caller ID and Call Waiting Display—show you who's calling, even when you're on another call*
- Intelligent Viewing System with SuperFlash—lets you see and access waiting calls from any extension
- Speakerphone with Mute
- 100-name and number Call Log*
- Three-line backlit display—for easy viewing, day or night
- Secure Numbers—for privacy in entering personal codes
- 100-name and number Directory
- Six programmable memory keys
- 10-number redial

How the world shares ideas.

When you're looking for convenience, the Meridian 9417 CW gives you twice as much. Two separate lines are ideal for people who work at home, share lines with an associate, or who need to be accessible while working on-line.

The M9417 CW's Call Director/Fax Switch, combined with Distinctive Ringing service from your service provider*, lets you know if the incoming call is business, personal, or a fax—and routes the call for you. With a Conference key to link the two lines, three-way calls are fast and simple.

In addition to two lines, the M9417 CW has a large three-line backlit display so you can easily see who's calling, even at night. If you're on another call, Call Waiting Display gives you the information you need to decide which call is more important—the one you're on, or the one that's waiting.

The M9417 CW also offers SuperFlash and the Intelligent Viewing System, to ensure that you'll be able to see who's waiting on the line and take the call, even when another extension is off hook.

The M9417 CW offers all the convenient features you'd expect in a high quality business phone, and then some. Like handsfree, memory keys, a Directory, 10-number redial and a Call Log that can track calls to each line*. What more could you ask for?
