5207 | IP Phone

Affordable Multi-line IP Speakerphone

The Mitel® 5207 IP Phone is an entry-level multi-line, user-programmable IP speakerphone with an easy-to-read backlit display. It is designed primarily for users requiring multiple line appearances and feature keys.

Multiple-line Access

The 5207 IP Phone is specifically designed as a cost-effective choice for any user or location in your operation that requires multiple-line access to advanced telephony features and user applications. Features include multiple programmable keys, an easy-to-read backlit orange LCD display and handsfree operation.

Industry's Widest Range of IP Phones

The 5207 IP Phone is one in a series of IP phones designed to meet the diverse communication needs of users across the enterprise – from affordable entry-level IP phones to sophisticated network appliances. All are designed with ergonomics and modern office aesthetics in mind.
