

The C950-NSQ412 Telephone System

The 4 line phone with the wireless freedom to roam up to 300 feet, hands free!

The International Resources NSQ412 is a feature-rich, four line, Caller ID telephone designed for small to medium work groups with up to a 12-telephone interacting system using 2,3,4 or more lines and a system intercom. The Plantronics CS50 Wireless Headset system is seamlessly integrated into the NSQ412, for immediate "plug and play" usability via a standard 3.5mm jack.

- The C950 lets you take the conversation wherever you need to go up to 300 feet.
- Walk and talk for up to 8 hours
- Answer and end calls while away from the phone
- The noise canceling microphone delivers calls that are crystal clear, private and secure
- Customizable, convertible headset that can be worn over the head or over the ear.

The C950 and the NSQ412 together offers your customers a unique, highly productive communications combination!

Sound Innovation for missions to the moon. And for everyday life on this planet, too.

In 1969, a Plantronics headset carried the historic words from the moon: "That's one small step..." Since then, we've set industry standards for headsets from aviation to space travel. Today, we're the headset of choice in mission-critical applications such as air traffic control and 911 dispatch. This history of sound innovation is the basis for every product we build—whether it's for work, home or on the go.

Plantronics. Sound Innovation.
