

Vista 9009s Call Display Telephone

Giving you the name and number of all incoming calls—even when you're on another call—the Vista 9009s puts you in charge. It's flexible communication for your whole household!

Key Features:

- **Call Display**—know who's calling before you answer*
- **Visual Call Waiting**—see who's calling, even when you're on another call*
- **Intelligent Viewing System with SuperFlash**—lets you see and access waiting calls from any extension*
- **Eight autodialers**—for your frequently called and emergency numbers
- **25-name and number Callers List***
- **Message Waiting light***
- **Line-in-Use indicator**

ASTRA
Telecom

Have you ever wondered who was calling while you were in the middle of an important conversation? Should you answer? Now you can see who is calling—even when you're on another call.

Thanks to the Intelligent Viewing System with SuperFlash, the Vista 9009s shows the name and number of each incoming call on its built-in display, even when another extension is off hook*. Then you can decide which call is more important—the one you're on or the one that's waiting.

After the call is over, the Callers List* keeps track of your last 25 calls, so you can remember who called and when. Simply press the Callers button to scroll through the list. The Vista 9009s lets you choose whether to log all calls, no calls, or only unanswered calls.

Placing your own calls is easy too. There are Eight autodialers - for your frequently called and emergency numbers. Just press the Shift key and your four keys become the other autodialers.

Add in features like the call timer and handy directory card, and you'll see the Vista 9009s is one hard-working telephone!
